Case Narrative

On 05/24/17 at 1616 hours I, Cpl. McClain, was dispatched to Fairfax Hospital (10200 NE 132nd St Kirkland WA) for a reported assault.

I arrived and spoke with [REDACTED] who is a patient at the hospital. [REDACTED] stated the following in summary: earlier in the day he was inside a classroom at the hospital. Also in that classroom was a female, [REDACTED] who is also a Fairfax patient. [REDACTED] stated [REDACTED] "is crazy" and because of this is quite loud. [REDACTED] stated that he finds [REDACTED] to be very obnoxious. Today, [REDACTED] heard [REDACTED] mention his name while she was yelling and carrying on. [REDACTED] told [REDACTED] "keep my name out of your mouth." This upset [REDACTED], who then began kicking [REDACTED]. [REDACTED] replied by yelling at [REDACTED].

A third Fairfax patient, [REDACTED] then inserted himself into the fracas. [REDACTED] approached [REDACTED] and slapped him in the head. Fairfax staff immediately intervened and attempted to separate [REDACTED] and [REDACTED]. [REDACTED], however, was able to break free. [REDACTED] then punched [REDACTED] several times in the head before he could be restrained.

I did not see and marks on [REDACTED], nor did I observe and bumps (this interview took place approximately 3 hours after the incident).

In speaking with [REDACTED] it was apparent that he was medicated. [REDACTED] seemed to have difficulty staying awake during our conversation, and would frequently lose his train of thought while speaking. [REDACTED] asked that the incident be documented and did not wish to pursue criminal charges against [REDACTED].

I then spoke with Fairfax nurse [REDACTED]. [REDACTED] stated the following in summary: [REDACTED] had indeed been struck by [REDACTED] but had also been antagonizing [REDACTED] prior to the assault. [REDACTED] yelling insults and obscenities at [REDACTED] when [REDACTED] stepped in.

[REDACTED] told [REDACTED] that he felt compelled to intervene because "[REDACTED] was verbally assaulting" [REDACTED]. [REDACTED] stated that [REDACTED] refused to speak with me because he does not like the police, and that seeing a police officer is "one of his triggers." [REDACTED] stated that [REDACTED], like [REDACTED], was also medicated.

I asked [REDACTED] if I could speak with [REDACTED]. [REDACTED] stated that I could not because [REDACTED] was still agitated from the earlier event and is "highly psychotic."
